COMPACT MULTI-FORMAT CAMERAS, LENSES, AND ACCESSORIES

BHMC

BELL & HOWELL/MAMIYA COMPANY

the rangefinder camera with  
universal capability

■ **ACCESSORY SHOE** provides convenient mounting of optical viewfinders, shoe-type flash units, and other accessories.

■ **BRILLIANT VIEWFINDER / RANGEFINDER** has built-in bright frames for 100, 150, and 250mm lens coverage plus automatic parallax compensation. The superimposed-image rangefinder couples to ALL lenses automatically. Viewfinder masks or optical viewfinders supplied with all other lenses.

■ **TRIGGER GRIP** comes with the camera body, has cable release connection to trip the shutter. Accessory shoe is on top of grip. Hand strap provides added security.

■ **BUILT-IN SHUTTERS** come with each lens, have speeds from 1 second to 1/500 second plus B for time exposures. Full M-X synchronization for all types of flash. Shutters can be locked open for ground-glass viewing and focusing. Flash terminal is PC-type.

■ **STRAP LUGS** on each side of the camera accept the sturdy accessory neck strap. Helps provide hands-off camera carrying and keeps the camera ready for instant use.

■ **BREECH-LOCK LENS MOUNT** permits quick and easy changing of lenses. Rangefinder coupling is automatic when the lens is installed.

■ **FLASH BRACKET** holds adapters for Heiland/Honeywell and Graflex flash units.

■ **INTERCHANGEABLE LENSES** are available in eight focal lengths from 50mm to 250mm. All are rangefinder-coupled and have a helical focusing system. These Mamiya/Sekor lenses have critical definition and superb color correction for outstanding picture quality. Lens hoods are included with all lenses except the 65 and 75mm.

■ **INTERCHANGEABLE FILM HOLDERS** are available in a variety of types including 120/220 holders for 6x4.5cm, 6x6cm, 6x7cm, and 6x9cm. Also available are holders for cut film and plates, film packs, and for Polaroid film packs.

■ **INTERCHANGEABLE BACKS** allow the use of Mamiya, Graflor®, and Polaroid film holders plus many other accessories.

■ **BACK LOCK/RELEASE** allows instant changing of backs for use of other backs and adapters.

**PLUS—**

- Frame finder indicator • Rubber eyecup
- Viewfinder has frames for both 6x9cm and 6x7cm formats • lenses have depth-of-field scales
- Tripod socket for horizontal pictures
- Tripod socket adapter for vertical pictures
- Stabilizing plate • and more!

## Mamiya Universal Press 6x9cm Rangefinder Camera

This impressive multi-format rangefinder camera has a range of versatility that is almost beyond belief. Whatever the need or assignment, the Universal Press can be a fast-handling action camera or an efficient studio camera. The large selection of interchangeable lenses and accessories complement the camera's built-in capabilities. The extensive system provides negative formats from 6x4.5cm to 6x9cm, plus the ability to accept Polaroid® film packs. All lenses couple to the rangefinder system automatically, and the breech-lock lens mount permits quick lens changing. For outstanding performance and reliability, efficient handling, and extreme versatility, the Mamiya Universal Press does the job.

**CAT. NO. 4123A**

Mamiya Universal Press Camera Body Only  
with Grip and Cable Release (less lens and  
back)

a hand camera for action  
shots — a view camera with  
swings and tilts

## Mamiya Press Super 23 6x9cm Rangefinder Camera

Here's a compact hand camera that combines advanced action features with view camera versatility—including back swings and tilts. Now a single camera can handle a wide variety of photographic assignments with precision and efficiency. The tilt-and-swing back is used for correcting perspective distortion and controlling depth-of-field. The large selection of interchangeable lenses and accessories, plus the ability to use different films and negative formats, round out the system. All lenses couple to the camera's rangefinder automatically and the breech-lock mounting system permits quick lens changing. For efficiency, reliability, and outstanding performance, the Press Super 23 comes through with flying colors.

CAT. NO. 4122A

Mamiya Press Super 23 Camera Body  
Only with Grip and Cable Release (less  
lens)

- **BRILLIANT VIEWFINDER/RANGEFINDER** features automatic parallax compensation and bright frames for the 100, 150, and 250mm lenses. The frame shows both 6x9cm and 6x7cm views and the superimposed-image rangefinder couples to ALL lenses automatically. Viewfinder masks or optical viewfinders are supplied with all other lenses.
- **BUILT-IN ACCESSORY SHOE** provides convenient mounting of the sportsfinders, optical viewfinders, and other accessories.
- **STRAP LUGS** are located on each side of the camera body and accept the accessory neck strap for secure carrying.
- **BUILT-IN SHUTTERS** have speeds from 1 second to 1/500 second plus B for time exposures. Full M-X flash synchronization. Shutters can be locked open for ground-glass viewing and focusing. The flash terminal is the PC type.
- **FLASH BRACKET** on the side of the camera holds adapters for Heiland/Honeywell and Graflex flash units.
- **TRIGGER GRIP** is supplied with the camera body and has a cable release to trip the shutter. The grip has an accessory shoe mounted on the top. Hand strap included.
- **INTERCHANGEABLE FILM HOLDERS** allow the use of a variety of 120/220 films in 6x4.5cm, 6x6cm, 6x7cm, and 6x9cm formats. The camera back also accepts a focusing screen holder and cut film/plate holders and film pack adapters.
- **INTERCHANGEABLE LENSES** are the same as for the Universal Press and come in eight different focal lengths from 50mm to 250mm. All are rangefinder-coupled and have a helical focusing system. Lens hoods are included with all lenses except the 65mm and 75mm sizes.
- **BREECH-LOCK LENS MOUNT** permits fast lens changing and positive seating with automatic rangefinder coupling.
- **TILT-AND-SWING BACK** is used for correcting perspective distortion and controlling the depth-of-field. The back may be extended out to a maximum of 30mm and swings and tilts up to 15° in each direction. The back is controlled by knobs on each side of the camera body.

### PLUS—

- Rubber eyecup • Frame finder indicator
- Depth-of-field scales on all lenses • Tripod sockets and adapters for both horizontal and vertical tripod mounting • Stabilizing plate
- Lens retraction warning signal • and more!

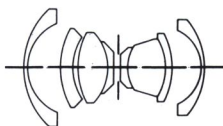

# INTERCHANGEABLE MAMIYA/SEKOR LENSES...

All press-series lenses have built-in shutters with speeds from 1 second to 1/500 second plus B for time exposures. Flash synchronization is possible at all shutter speeds.
